About the job

Join our Testing Competency Center as a **Test Automation Architect** and drive modern automation strategies with a strong focus on **JavaScript** or **Python ecosystems**. You will play a key role in shaping scalable automation solutions and integrating AI into the SDLC.

This is a fully remote position that offers you the flexibility to work from any location in Armenia, whether it's your home or well-equipped offices in Yerevan or Gyumri.

Responsibilities

- Design and implement end-to-end test automation architectures using JavaScript and Python
- Define automation strategies, including framework selection, tooling, and infrastructure setup
- Build and scale automation from scratch, ensuring maintainability and reusability
- Collaborate closely with Dev, DevOps, and QA teams to embed automation into CI/CD pipelines
- Drive improvements in test coverage, execution speed, and quality metrics
- Introduce and prototype AI-driven testing solutions (test generation, self-healing, quality insights)
- Contribute to presales activities: solution design, estimations, and technical proposals
- Mentor teams and establish best practices in test automation

Requirements

- 5+ years of hands-on experience in Test Automation
- Strong expertise in JavaScript (e.g., Playwright, Cypress) and/or Python (e.g., pytest, Robot Framework)
- Proven experience with building automation frameworks from scratch
- Solid understanding of CI/CD, DevOps practices, and modern SDLC
- Experience in integrating automation into cloud environments (AWS, Azure, etc.)
- Familiarity with AI-powered testing tools is a strong plus
- Strong problem-solving skills and the ability to improve inefficient QA processes
- Good communication skills. B2+ English

- Experience with performance or API testing
- Exposure to containerization (Docker, Kubernetes)

Exposure to containerization (Docker, Kubernetes)

- Experience in presales or client-facing roles

We offer

- **We connect like-minded people**
 - Delivering innovative solutions to industry leaders, making a global impact
 - Enjoyable working environment, whether it is the vibrant office or the comfort of your home
 - Opportunity to work abroad for up to two months per year
 - Relocation opportunities within our offices in 55+ countries
 - Corporate and social events
- **We invest in your growth**
 - Leadership development, career advising, soft skills and well-being programs
 - Certifications, including GCP, Azure and AWS
 - Unlimited access to EPAM's internal learning database
 - Free English classes with certified teachers
- **We cover it all**
 - Participation in the Employee Stock Purchase Plan
 - Monetary bonuses for engaging in the referral program
 - Comprehensive medical & family care package
 - Four trust days per year for personal needs
 - Discounts for fitness clubs
 - Benefits package (hotels, restaurants, stores and services)

EPAM Armenia is a team of talented innovators united by a passion for technology. In 2014, we opened our first office in Yerevan, and now we have a second engineering hub in Gyumri. We've built a continuously learning organization that helps its employees rapidly advance their careers. Here you will work with the world's industry leaders, support impactful projects using the latest technologies, collaborate with multi-national teams, and have access to a wide variety of development opportunities.
