

SIMIN SHOEIBI

QA Engineer

Yerevan, Armenia | simin.shoaibi@proton.me | +374 94 595 114

[linkedin.com/in/simin-shoaibi/](https://www.linkedin.com/in/simin-shoaibi/) | github.com/SuisSanem000

PROFESSIONAL SUMMARY

QA Specialist with 3+ years of experience in rigorous manual testing and API validation for high-traffic systems (60,000+ daily users). Specialized in finding complex edge cases in document ingestion pipelines and high-load REST APIs that automated scripts often miss. Expert in Postman, Jira, and backend data integrity (SQL/Redis).

TECHNICAL SKILLS

- **Testing Methodologies:** Manual Testing, API Testing, Regression Testing, Smoke Testing, UAT, Exploratory Testing, Functional Testing
- **Testing:** Jest, Supertest, Mocha/Chai, React Testing Library, TDD, Automated LLM Validation
- **QA & Defect Tracking Tools:** Jira, TestRail, Postman, Chrome DevTools, Git
- **Programming languages and frameworks:** TypeScript, JavaScript, Python, Node.js, Express.js
- **Databases:** PostgreSQL, Redis, MongoDB, MySQL, SQLite, IndexedDB
- **Automation & Technical Skills:** Selenium, Cypress, Playwright, SQL, HTML/CSS, JSON Validation, AJV, JSON Schema, Docker, GitHub Actions
- **API & Backend Verification:** REST APIs, GraphQL, WebSockets, Swagger/OpenAPI
- **Process & Frameworks:** Agile/Scrum, Software Testing Life Cycle (STLC), Bug Triage, Test Case Design

PROFESSIONAL EXPERIENCE

[QueryLaw / TreeScribe](#) — QA Specialist | Jan 2025 – Jun 2026

- Conducted comprehensive manual testing, including smoke, regression, and User Acceptance Testing (UAT), for web-based document processing applications.
- Created, executed, and maintained detailed test cases and test plans using TestRail, mapping them directly to product requirements and user stories.
- Identified, documented, and tracked software defects in Jira, providing clear reproduction steps, network logs, and screenshots to accelerate developer fixes.
- Performed extensive API testing utilizing Postman to validate status codes, JSON payloads, and data integrity across backend endpoints.
- Introduced light automated test scripts using Cypress and Playwright to handle repetitive UI verification tasks and reduce manual regression time.

- Participated actively in Agile/Scrum ceremonies, advocating for quality standards and defining clear acceptance criteria before sprint execution.

Parsaiane (Dadroit) — Junior QA Tester | *Jan 2023 – Dec 2024*

- Executed manual functional and regression testing across desktop and web applications, ensuring consistent UI/UX and feature stability.
- Authored foundational bug reports and participated in bug triage sessions with product managers to prioritize critical software fixes.
- Performed backend database verifications using SQL to ensure data consistency and accuracy during application updates.
- Conducted exploratory testing to identify edge cases and unexpected behaviors outside the scope of standard test scripts.
- Learned and applied basic Selenium scripts to automate simple, repetitive smoke testing processes in lower environments.

EDUCATION

Islamic Azad University, Ahvaz | MSc Software Engineering (2018 – 2020)

Shahid Chamran University (Jundi Shapur), Ahvaz | BSc Software Engineering (2012 – 2016)
