About the job

Sumsb is the first AI-powered trust infrastructure for compliance operations at scale. It connects identity and business verification, fraud prevention, transaction monitoring, and risk workflows, helping teams reduce manual work and enter new markets.

Trusted by over 4,000 clients across financial services, crypto, mobility, trading, marketplaces, education, and iGaming, including Bybit, Bitpanda, Wirex, Avis, Vodafone, Duolingo, Kaizen Gaming, and Bancaribe.

Sumsb is recognized as a Great Place To Work® in the US and rated 4.3 out of 5 on Glassdoor. Our 1,000+

Now we are looking for a **Mobile QA Engineer** to join the team.

What You Will Be Doing:

- Design and implement comprehensive test plans for mobile applications.
- Execute test cases on mobile applications (iOS and Android) following established test plans.
- Develop and maintain automated test scripts using tools like Appium, XCUITest, and Espresso.
- Analyze test results, identify trends and patterns, and provide recommendations for improvement.
- Collaborate with developers and other QA team members to resolve issues.
- Work closely with product managers and stakeholders to understand requirements and ensure test coverage.
- Proactively identify potential issues and risks and propose solutions.
- Stay up-to-date on the latest mobile testing technologies and best practices.

About You:

- Strong attention to detail and a passion for quality.
- 2+ years of experience in software testing, with significant mobile testing experience.
- Familiarity with mobile testing principles and methodologies.
- Programming skills (e.g., Java, Python, JavaScript).
- Experience with various mobile testing tools and frameworks.
- Ability to work independently and as part of a team.
- Excellent communication, analytical and problem-solving skills.

What We Offer:

- Remote-first, trust-based culture. Work from the place that works best for you. No mandatory office days, no attendance trackers. In some locations, we provide offices or coworking spaces, but the choice is yours.
- True flexibility. We do not fix you to a 9-to-5 schedule. You can adjust your working hours when needed, as long as your day stays productive and in sync with the team.
- Extra time off. Your birthday is a holiday here. Add to that 10 personal days each year, seven sick days without paperwork, and extra time to enjoy Christmas and New Year. Time to rest is part of the deal.
- Work that matters. Our mission is to build a digital world that is secure, accessible and inclusive for everyone. From fighting fraud to making online services easier and safer to use, your work will have a real impact on how people experience trust online.
- Compensation. We offer fair and transparent pay, benchmarked to the market.
- Truly global. We work across continents and time zones, with teammates and customers from all over the world. You will run campaigns that cross borders, cultures, and languages, and see your ideas land worldwide.
- Growth built in. Clear goals, open feedback and personal development plans. We support your progress with learning opportunities and by covering role-specific events, from design conferences to marketing forums.
- Celebrating your big moments. We are proud to support you through life's biggest journeys with dedicated financial bonuses for both marriage and welcoming a new baby to your family.

- Friendly by design. Our logo is a dog for a reason. We keep things human, open and kind. We welcome individuality, quirks and different perspectives, because that is what makes our work smarter and more fun.

The hiring stages: TA screening -> Hiring Manager Interview -> Assignment -> Final Interview.

Sounds like a great opportunity for your career development? Then go ahead and apply!

We are a global community of innovators, creators, and thinkers, and we believe that diversity fuels our innovation. Sumsb is proud to be an equal opportunity employer, committed to building a diverse and inclusive workforce. We welcome applications from people of all backgrounds, cultures, genders, experiences, abilities and perspectives. Join us in shaping the future inclusively.

We believe in fair and transparent compensation. Salaries vary depending on work location and applicable local market conditions.

We believe in fair and transparent compensation. Salaries vary depending on work location and applicable local market conditions.

This role is open to candidates in multiple countries, and compensation differs based on the candidate's confirmed work location. For this reason, a single universal salary range is not included in this job posting.

The applicable work location will be confirmed early in the recruitment process, and the relevant compensation information for that location will be shared in writing, in line with local requirements.
