About the job

We're hiring on behalf of a Haystack partner!

The Role

- Lead quality assurance efforts for mission-critical applications supporting U.S. Navy maintenance and readiness.
- Establish and maintain QA processes throughout the entire system development lifecycle (SDLC).
- Develop, document, and execute comprehensive test strategies, plans, and procedures.

Job moved to **In progress** under Clicked apply.

now

1/6

Ensure systems meet stringent DoD, Navy, and NAVSEA quality standards and compliance requirements.

What You'll Need

- Bachelor's degree (STEM preferred) with a minimum of 8 years of experience in quality assurance or software testing.
- Proven experience establishing and maintaining QA processes across the system lifecycle.
- Demonstrated ability to develop and execute test plans, test cases, and test procedures.
- Experience supporting testing across complex, integrated systems and multiple environments.
- Proficiency with defect tracking tools and test management frameworks.
- Strong analytical, problem-solving, and communication skills, with the ability to support DoD/Navy programs.
- Ability to obtain and maintain a DoD Secret clearance.

What's On Offer

- Engage in mission-critical work that directly impacts national security.
- Benefit from a culture of integrity and innovation with a strong focus on employee contributions.
- Enjoy flexible time off and access to robust learning resources for continuous growth.
- Receive competitive compensation and a comprehensive benefits package supporting employees and their families.
