About the job

Hey there, future changemaker!

At Noda we're building seamless Open Banking solutions that make payments **smarter**, **faster**, and **safer**. We're now looking for a **Senior QA Engineer** to join Noda. If you're fueled by fintech excitement and seek a global career journey, keep reading!

Your Mission

- Designing and executing test cases across functional, integration, regression, UI, and end-to-end testing;
- Performing manual API testing (Postman) and validating complex payment flows and integrations;

Job moved to **In progress** under Clicked apply.

now

1/2

- Investigating production issues using logs and monitoring tools (e.g. Kibana, Elasticsearch);
- Analyzing risks, alerts, and system behavior, including antifraud-related flows;
- Working effectively with incomplete documentation and supporting release processes.

Your Skills And Experience

- 3–5+ years of experience in Manual QA (strong Middle or Senior level);
- Proven experience in fintech or payment systems (highly preferred);
- Strong hands-on experience in API testing, including tools like Postman or similar;
- Solid understanding of web application testing, including use of browser DevTools and proxy tools (e.g. Charles, Fiddler);
- Experience testing mobile applications (iOS/Android);
- Practical experience working with complex payment flows and financial transactions (a strong advantage);
- Good knowledge of databases (SQL and/or NoSQL);
- Experience working with logs and monitoring tools (e.g. Elasticsearch, Kibana);
- Strong skills in test design, including ability to cover edge cases and complex scenarios;
- Experience testing complex integrations and systems with non-trivial business logic (e.g. calculations, financial flows);
- Ability to analyze alerting/reporting systems and understand system behavior based on logs and metrics;
- Experience testing antifraud systems or risk-related features is a strong plus;
- High level of attention to detail and analytical thinking;
- Ability to work with incomplete or ambiguous documentation, proactively identifying gaps and predicting system behavior;
- Strong problem-solving skills and ownership mindset.

Nice To Have

- Experience with Microsoft services like: Microsoft 365, Microsoft Entra ID, Azure DevOps.
- Experience with AI-driven testing tools and agents

What We Offer

- Your office, your rules: remote-first setup with full flexibility - work from home, one of our offices or while exploring new places. Wherever you feel most productive, that's your office.
- Keep growing: your growth is our priority. We cover trainings, courses, and certifications so you can sharpen your skills and stay ahead in your field.
- Strong connections: distance doesn't stop us from building great bonds. From virtual hangouts and creative online sessions to local meet-ups and company-wide events, you'll always feel part of the team.
- All the gear you need: we provide the hardware you need and a budget for your home office setup, making sure you've got the perfect tools to succeed.
- Time to recharge: we value balance just as much as results. That's why we offer plenty of time off to rest, reset, and come back energised.
- Wellbeing budget: your wellbeing matters just as much as your work. We provide a dedicated budget you can spend on what helps you feel your best — whether it's fitness memberships, mental health support,

- Your CV will undergo careful review, and we'll quickly update you on the next step in our recruitment journey.
- Get ready for an easy-going introduction call with our HR Manager, where you'll delve into the heart of our company, product, and team dynamics, while sharing your own experiences and aspirations.
- Should the vibe match and your expectations align, the next step will be two additional interview rounds (technical and final).
- And if everything clicks, anticipate a thrilling job offer landing in your inbox soon!

We do our best to close interview rounds within **3 WEEKS**, although sometimes it might take slightly longer. Send your application our way, we look forward to meeting you!
